ASIAN INFRASTRUCTURE INVESTMENT BANK

Gregory Liu
Director General, Financial Intermediaries and Funds Clients Department, Global

Gregory Liu is Director General of the Financial Intermediaries and Fund Clients, Global (FIF). He is responsible for overseeing relationships and investment and lending operations with financial intermediaries, including public and private financial institutions, non-banking financial companies, and financial sponsors, including equity, credit and mezzanine funds and their investees. Prior to this role, Liu was Director General of Infrastructure Investment Department in Investment Operations (Region 2). As a senior banker with extensive private sector experience, he has built and directed strong teams that have won a series of awards in infrastructure financing for the Bank. Prior to joining AIIB in February 2017, Liu spent 10 years in Singapore with Sumitomo Mitsui Banking Corporation (SMBC) in various capacities, including Head of Export & Agency Finance, Head of Global LNG and Head of North East Asia in its Investment Banking Asia Department. At SMBC, Liu advised a variety of clients from different continents to raise in excess of USD6 billion of debt for a series of award-winning energy or energy infrastructure projects. Before relocating to Asia in 2008, Liu was a Director at Fitch Ratings in London, covering regulated utilities in 2007. From 1997 to 2007, he worked at the Capital Markets of Dresdner Kleinwort in Frankfurt and London. Liu holds a Master of Science in Information Systems from the London School of Economics and Political Science, United Kingdom (UK). Liu is from the UK.
